About Hallo Helper

Hallo Helper is an app-based marketplace platform for local access to vetted on-demand services and on-demand work in the Post-pandemic. Introducing a new social technology that increases Efficiency, Inclusivity, and Affordability for the Local Service sector of the On-demand Gig Economy. Inspired by the people in Puerto Rico with limitations that affect their ability to earn supplemental income in the Gig Economy, the platform's mission is to make an equal and sustainable system of offering and getting on-demand services, accessible for all types of users. Meticulously designed, its service provider app, named Helper App, is built to solve pain points for workers and empower them to maximize their earning potential. Making it easy for them to manage and respond to bookings, while gamifying the way they work. Hallo Helper provides the

only digital “access-to-supplemental-earning” platform that’s all-inclusive for any type of service workers offer. It also provides a free way for providers to get background checked, build professional reputation, and achieve easier job management. Getting them and all of their various services booked by on-demand customers in real-time. To learn more, visit hallopr.com.
